Post: 22 Rosebery Avenue, Rosebery NSW 2018

MANDATORY DECLARATION

I am the owner of the installation mentioned in this STC Assignment form and I agree to assign my right to create STCs to Quantum Energy Technologies Pty Ltd (the Agent). I have not previously assigned or created any STCs for this installation.

I understand that the System is eligible for STCs and, in exchange for assigning my right to create these STCs; I will receive from the Agent a monetary Payment via Direct Deposit (amount to be confirmed).

To calculate your STCs visit <https://www.rec-registry.gov.au/swhCalculatorInit.shtml> or call Quantum on 1800 228118

BANK DETAILS FOR DIRECT PAYMENT:

- **BSB:** _____
- **Account number:** _____
- **Account name:** _____

ADDITIONAL DOCUMENTS REQUIRED VERIFYING INSTALLATION:

- A certificate(s) of compliance or state/territory equivalent to evidence installation date – in states/territories where a plumbing and electrical/gas certificate are required both must be provided, and;
- A tax invoice or equivalent supporting documentation to evidence system brand and model, e.g. photographic evidence of the tank compliance plate.

GST DECLARATION - I declare that I am registered for GST:

(If you or your business generally includes GST in the price of most goods and services and anything else it sells)

- Yes (you must then provide a tax invoice as requested by Quantum Energy Technologies)

WHICH OF THE FOLLOWING CATEGORIES BEST DESCRIBES YOUR SWH INSTALLATION?

- 1 SWH is installed as part of a new building
- 2 SWH replaces an electric hot water system
- 3 SWH replaces a solar water heater (including boosted solar water heaters and heat pumps)
- 4 SWH is the first installation of a water heater at an existing building
- 5 SWH replaces a gas hot water system

OWNER DETAILS

NAME	First	Surname	
Quantum Unit Installed	Model Number	Serial Number	
Address of Installation	Must be physical and identifiable lot number/street address		
	City	State	Postcode
Residence type	Single or multi storey		
Owners Address	If same as installation address write "As Above"		
	City	State	Postcode
Phone		Mobile	
Email			

INSTALLER DETAILS

Name	First	Surname	
Company			
ABN		Account No.	
Postal Address			
	City	State	Postcode
Phone		Mobile	
Email			
Date of Installation			

OWNER DECLARATION

I have not previously created or assigned STCs for this installation, and I have read and understand all the terms and conditions of this form, and am aware that penalties apply for providing misleading information under the Renewable Energy (Electricity) Act 2000.

Owner of Installation

Signed: _____
Name: _____
Date: _____

Witness

Signed: _____
Name: _____
Date: _____

STC ELIGIBILITY

To calculate the number of STCs your system is eligible for, please refer to the STC Calculator at www.rec-registry.gov.au/swhCalculator/init.shtml or contact Quantum Energy on 02 9699 7444

Please be aware that:

- The Calculator does not take into account all of the variables which may affect the calculation of the STCs for an installation,
- the Calculator is based on data which may be updated from time to time and therefore results using the Calculator may vary over time, and
- you should not use the Calculator as the basis for making any decision or embarking on any course of action

STCs are managed by the Australian Government Clean Energy Regulator:

Heat Pump systems (SWH) must be listed in the Clean Energy Regulator Registry of Solar Water Heaters at <http://ret.cleanenergyregulator.gov.au/Hot-Water-Systems/Eligible-Solar-Water-Heaters/eligible-swhs> in order to be eligible for STCs. For more information, please contact the **Australian Government Clean Energy Regulator**.

To generate Small-scale Technology Certificates (STCs):

- You must be the owner of the STCs, either by having installed an eligible system at your property or by having the STCs correctly assigned to you by the original owner of the STCs
- You must create STCs within 12 months of the system being installed

Before you start be aware of the following:

- Small-scale Technology Certificates (STCs) are not a rebate, and completing this creation process is not an application for a Government rebate. You will not qualify for any Government-based financial recompense at the completion of this process.
- The Clean Energy Regulator cannot manage any of these processes for you and cannot intervene in any process outside of STC creation. It can provide advice only.
- The number of STC's that may be created for a particular solar water heater or heat pump water heater is set in the Renewable Energy (Electricity) Regulation 2001.
- STC's have a value determined by the market in which they may be traded. The financial value of a STC is dependent on the supply of and demand for STC's and may vary between buyers and sellers from day to day.

Your system must comply with all the requirements listed below in order to be eligible:

- You must be the owner of the system at the time it is installed to be entitled to assign or create STCs
- Check ownership of the system **before** you create STCs
- Once the owner of a water heater has assigned their right to create STC's no other STC's can be created with respect to that heat pump water heater
- Quantum Energy Technologies is registered to act as an Agent - you cannot create STCs if you have already assigned them to another Agent
- You may need to inform your supplier/s that they will not be assigned the STCs against the system when you make your purchase.
- All parts of the system are installed and demonstrated to be capable of supplying hot water to the property. This includes panels, pumps, tanks, wiring, electrical connection, etc.
- STCs can only be created **once** for a solar water heater or heat pump and are calculated for the life of the system which is deemed to be 10 years.

- **Any instance of improper creation of STC's, under Section 24 of the *Renewable Energy (Electricity) Act 2000*, may result in referral for prosecution regardless of the reason for the improper creation. Providing false or misleading information under Part 11A of the Act is a criminal offence.**
